-----**FOR IMMEDIATE RELEASE**-----

## **CardSmith Announces Pharos Integration**

- \* Uniprint system integrated with CardSmith “SaaS” campus card transaction system
- \* On-line vending for print jobs made simple
- \* Companies completed development and testing in 60 days start to finish

September 19, 2011

Doylestown, PA:

CardSmith LLC announced today the integration of Pharos Systems’ Uniprint solution with its campus card transaction processing system. Integration of the companies’ systems creates a 100% web-enabled transaction processing solution with one of the leading print management systems available. Pharos customers can connect their Uniprint solution to the CardSmith system for real-time billing purposes, so when a user prints, the charge can be applied to that user’s “Campus Cash” account. The Uniprint system integration is developed and certified, and generally available for CardSmith customers.

### **About CardSmith:**

CardSmith is a campus card solutions company serving educational institutions, campus service providers, cardholders, card-accepting merchants, private label card issuers, and closed loop communities nationwide. The company provides the market’s only SaaS transaction management solution and turn-key card program management service, delivering superior capability, service and performance for less than 50% of the cost of proprietary card systems.
